AN OFFICIAL JOURNAL OF THE AMERICAN HEART ASSOCIATION

Index to Volume 8
January–December 1988

Subject Index

A

ACAT inhibitor
- Ca^{++} Antagonists and ACAT Inhibitors Promote Cholesterol Efflux from Macrophages by Different Mechanisms. I. Characterization of Cellular Lipid Metabolism, 46
- Ca^{++} Antagonists and ACAT Inhibitors Promote Cholesterol Efflux from Macrophages by Different Mechanisms. II. Characterization of Intracellular Morphologic Changes, 57

Aerobic exercise
- Heredity and Changes in Plasma Lipids and Lipoproteins after Short-term Exercise Training in Men, 402

Agarose gel filtration chromatography
- Effects of Saturated and Polyunsaturated Dietary Fat on the Concentrations of HDL Subpopulations in African Green Monkeys, 22

Ag(c/g)
- Apolipoprotein B Gene Haplotypes. Association between Ag and DNA Polymorphisms, 521

Ag polymorphism
- Apolipoprotein B. The Ag(a_1/d) Immunogenetic Polymorphism Coincides with a T-to-C Substitution at Nucleotide 1981, Creating an Alu I Restriction Site, 429

Ag(x/y)
- Apolipoprotein B Gene Haplotypes. Association between Ag and DNA Polymorphisms, 521

Alloxan-diabetic rabbits
- Reduced Atherogenesis in Cholesterol-fed Diabetic Rabbits. Giant Lipoproteins Do Not Enter the Arterial Wall, 421

Analytic ultracentrifugation
- Coordinate Changes in Levels of Human Serum Low and High Density Lipoprotein Subclasses in Healthy Men, 155
- Effects of Saturated and Polyunsaturated Dietary Fat on the Concentrations of HDL Subpopulations in African Green Monkeys, 22

Anionic and cationized ferritin
- Effect of Dextran 40 on Endothelial Binding and Vesicle Loading of Ferritin in Rabbit Aorta, 140

Aorta
- Effect of Dextran 40 on Endothelial Binding and Vesicle Loading of Ferritin in Rabbit Aorta, 140
- Effect of Metoprolol on Diet-induced Atherosclerosis in Rabbits, 40
- Lipid Composition of Aorta of Watanabe Heritable Hyperlipemic and Comparably Hypercholesterolemic Fat-fed Rabbits. Plasma Lipid Composition Determines Aortic Lipid Composition of Hypercholesterolemic Rabbits, 338, 857

Aortic permeability
- Reduced Atherogenesis in Cholesterol-fed Diabetic Rabbits. Giant Lipoproteins Do Not Enter the Arterial Wall, 421

Aortic permeability coefficients
- In Vivo Transfer of Cholesteryl Ester from High and Low Density Plasma Lipoproteins into Human Aortic Tissue, 252

Aortic proteoglycans
- Identification of Apo B-100 Segments Mediating the Interaction of Low Density Lipoproteins with Arterial Proteoglycans, 368

Apo B-100 regions
- Identification of Apo B-100 Segments Mediating the Interaction of Low Density Lipoproteins with Arterial Proteoglycans, 368

Apo E-3
- Enhanced Metabolism of Normolipidemic Human Plasma Very Low Density Lipoprotein in Cultured Cells by Exogenous Apolipoprotein E-3, 480

Apo E synthesis
- Ca^{++} Antagonists and ACAT Inhibitors Promote Cholesterol Efflux from Macrophages by Different Mechanisms. I. Characterization of Cellular Lipid Metabolism, 46

Apolipoprotein A-I
- Binding of Apolipoprotein A-I and Apolipoprotein A-IV to Cultured Bovine Aortic Endothelial Cells, 178

Apolipoprotein A-IV
- Binding of Apolipoprotein A-I and Apolipoprotein A-IV to Cultured Bovine Aortic Endothelial Cells, 178

Apolipoprotein B
- Apolipoprotein B. The Ag(a_1/d) Immunogenetic Polymorphism Coincides with a T-to-C Substitution at Nucleotide 1981, Creating an Alu I Restriction Site, 429
- Body Fat Distribution, Plasma Lipids, and Lipoproteins, 88
- Expression of Apolipoprotein B Epitopes in Lipoproteins. Relationship to Conformation and Function, 832
- Isolation of Low Density Lipoprotein from Atherosclerotic Vascular Tissue of Watanabe Heritable Hyperlipidemic Rabbits, 768
- Presence of a Modified Low Density Lipoprotein in Humans, 79, 857

Apolipoprotein B, C-II, C-III
- Metabolism of Apolipoproteins C-II, C-III, and B in Hypertriglyceridemic Men. Changes after Heparin-induced Lipolysis, 471

Apolipoprotein E
- Apolipoprotein E Polymorphism and Atherosclerosis, 1
- Enhanced Apolipoprotein E Production with Normal Hepatic mRNA Levels in the Watanabe Heritable Hyperlipidemic Rabbit, 804

Apolipoproteins
- Effect of Metoprolol on Diet-induced Atherosclerosis in Rabbits, 40
- Enhanced Apolipoprotein E Production with Normal Hepatic mRNA Levels in the Watanabe Heritable Hyperlipidemic Rabbit, 804
- Metabolism of Canine β-Very Low Density Lipoproteins in Normal and Cholesterol-fed Dogs, 130
- Serum Lipids and Apolipoprotein Levels in Women with Acute Myocardial Infarction, 742

Apoprotein B gene expression
- Independent Effects of Diet and Nutritional Status on Apoprotein B Gene Expression in Rabbit, 797

Apoproteins
- Characteristics Associated with Apoprotein and Lipoprotein Lipid Levels in Middle-aged Women, 515
- Insulin Therapy Induces Antiatherogenic Changes of Serum Lipoproteins in Noninsulin-Dependent Diabetes, 168

Arsenic
- Arsenic, Geographical Isolates, Environmental Epidemiology, and Arteriosclerosis, 449
- Atherogenicity and Carcinogenicity of High-Arsenic Artesian Well Water. Multiple Risk Factors and Related Malignant Neoplasms of Blackfoot Disease, 452

Arterial smooth muscle cells (monkey)
Cholesterol Accumulation in Aortic Smooth Muscle Cells Exposed to Low Density Lipoproteins. Contribution of Free Cholesterol Transfer, 750
Arterial stress
Inhibition of Atherosclerosis Associated with Reduction of Arterial Intramural Stress in Rabbits, 410
Arteriosclerosis
Blood Rheology in Healthy Cigarette Smokers. Results from the MONICA Project, Augsburg, 385
Coronary Arteriosclerosis in Atlantic Salmon. No Regression of Lesions after Spawning, 378
Aspirin
Interaction of Ethanol, Prostacyclin, and Aspirin in Determining Human Platelet Reactivity in Vitro, 436
Atherogenesis
An International Symposium on the Role of Blood Flow in Atherogenesis, 445
Antiatherogenic Effect of Olive and Corn Oils in Cholesterol-fed Rabbits with the Same Plasma Cholesterol Level, 281
Arsenic, Geographical Isolates, Environmental Epidemiology, and Arteriosclerosis, 449
In Vivo Transfer of Cholesteryl Ester from High and Low Density Plasma Lipoproteins into Human Aortic Tissue, 252
Atherogenic diet
Dietary Factors Relate to Cardiovascular Risk Factors in Early Life. Bogalusa Heart Study, 193
Atherosclerosis
An International Symposium on the Role of Blood Flow in Atherogenesis, 445
Apolipoprotein E Polymorphism and Atherosclerosis, 1
Atherosclerosis of Cynomolgus Monkeys Hyper- and Hyporesponsive to Dietary Cholesterol. Lack of Effect of Vasectomy, 488
Atherosclerotic Vascular Disease in Middle-aged, Insulin-treated, Diabetic Patients. Association with Endogenous Insulin Secretion Capacity, 237
Decreased Coronary Vascular Reserve in Watanabe Heritable Hyperlipidemic Rabbits, 310
Deferred Effects of Preweaning Diet on Atherosclerosis in Adolescent Baboons, 274
Effect of Metoprolol on Diet-induced Atherosclerosis in Rabbits, 40
Endogenous Insulin and Sex Hormones in Atherosclerosis and Coronary Heart Disease, 544
Hyperinsulinemia Is Characterized by Jointly Disturbed Plasma VLDL, LDL, and HDL Levels. A Population-based Study, 227
Identification of Apo B-100 Segments Mediating the Interaction of Low Density Lipoproteins with Arterial Proteoglycans, 368
Inhibition of Atherosclerosis Associated with Reduction of Arterial Intramural Stress in Rabbits, 410
Interaction of Native and Cell-modified Low Density Lipoprotein with Collagen Gel, 525
Isolation of Low Density Lipoprotein from Atherosclerotic Vascular Tissue of Watanabe Heritable Hyperlipidemic Rabbits, 768
Prevalence of Carotid Atherosclerosis and Serum Cholesterol Levels in Eastern Finland, 788
Progression and Regression of Atherosclerotic Lesions. Insights from Lipid Physical Biochemistry, 103
Prostacyclin, Thromboxane A_2, and Prostaglandin E_2 Formation in Atherosclerotic Human Carotid Artery, 73
Quantitative Ultrasound Pulsation Study in Human Carotid Artery Disease, 778
Reduced Atherogenesis in Cholesterol-fed Diabetic Rabbits. Giant Lipoproteins Do Not Enter the Arterial Wall, 421
Suppression of Foam Cell Lesions in Hypercholesterolemic Rabbits by Inhibition of Thromboxane A_2 Synthesis, 359
Tissue-Type Plasminogen Activator Antigen and Plasminogen Activator Inhibitor in Diabetes Mellitus, 68
Atlantic salmon
Coronary Arteriosclerosis in Atlantic Salmon. No Regression of Lesions after Spawning, 378
Autopsied cases
Comparison of Two Measures of Atherosclerosis in a Prospective Epidemiology Study, 782

B

Baboon (*Papio* sp.)
Effects of Selective Breeding on the Cholesterolemic Responses to Dietary Saturated Fat and Cholesterol in Baboons, 33
Balloon catheter stripping
Identification of Macrophages in Intimal Thickening of Rat Carotid Arteries by Cytochemical Localization of Purine Nucleoside Phosphorylase, 759
Bile acid synthesis
Mortality and Cholesterol Metabolism in Familial Hypercholesterolemia. Long-term Follow-up of 96 Patients, 163
Binding
Interaction of Native and Cell-modified Low Density Lipoprotein with Collagen Gel, 525
Blacks
Assessment of Cardiovascular Risk Factors in Nigerian Students, 793
Blood flow
An International Symposium on the Role of Blood Flow in Atherogenesis, 445
Blood platelets
Blood Platelets Are Concentrated near the Wall and Red Blood Cells, in the Center in Flowing Blood, 819
Blood pressure
Assessment of Cardiovascular Risk Factors in Nigerian Students, 793
Comparison of Two Measures of Atherosclerosis in a Prospective Epidemiology Study, 782
B-mode ultrasound
Prevalence of Carotid Atherosclerosis and Serum Cholesterol Levels in Eastern Finland, 788
Quantitative Ultrasound Pulsation Study in Human Carotid Artery Disease, 778
Body fat distribution
Body Fat Distribution, Plasma Lipids, and Lipoproteins, 88
Heredity and Changes in Plasma Lipids and Lipoproteins after Short-term Exercise Training in Men, 402
Body mass index
Assessment of Cardiovascular Risk Factors in Nigerian Students, 793
Bradykinin
Endothelium from Diverse Vascular Sources Synthesizes Platelet-Activating Factor, 321

C

Ca^{++} antagonist
Ca^{++} Antagonists and ACAT Inhibitors Promote Cholesterol Efflux from Macrophages by Different Mechanisms. I. Characterization of Cellular Lipid Metabolism, 46
Ca^{++} Antagonists and ACAT Inhibitors Promote Cholesterol Efflux from Macrophages by Different Mechanisms. II. Characterization of Intracellular Morphologic Changes, 57
Cancers
Atherogenicity and Carcinogenicity of High-Arsenic Artesian Well Water. Multiple Risk Factors and Related Malignant Neoplasms of Blackfoot Disease, 452
Cardiac pulsation
Quantitative Ultrasound Pulsation Study in Human Carotid Artery Disease, 778
Cardiovascular risk factors
Blood Rheology in Healthy Cigarette Smokers. Results from the MONICA Project, Augsburg, 385
Carotid atherosclerosis
Individual Variation in Susceptibility to Extracranial Carotid Atherosclerosis, 389
Carotid artery
Prostacyclin, Thromboxane A_2, and Prostaglandin E_2 Formation in Atherosclerotic Human Carotid Artery, 73

Carotid artery disease
Quantitative Ultrasound Pulsation Study in Human Carotid Artery Disease, 778
Child nutrition
Dietary Factors Relate to Cardiovascular Risk Factors in Early Life. Bogalusa Heart Study, 193
Childhood
Dietary Factors Relate to Cardiovascular Risk Factors in Early Life. Bogalusa Heart Study, 193
Cholesterol
Dietary Factors Relate to Cardiovascular Risk Factors in Early Life. Bogalusa Heart Study, 193
Effect of Moderate Exercise on Serum Lipids in Young Men with Low High Density Lipoprotein Cholesterol, 245
In Vivo Transfer of Cholesteryl Ester from High and Low Density Plasma Lipoproteins into Human Aortic Tissue, 252
Reduced Atherogenesis in Cholesterol-fed Diabetic Rabbits. Giant Lipoproteins Do Not Enter the Arterial Wall, 421
Tenth Annual European Lipoprotein Conference, 442
Workshop on the Impact of Dietary Cholesterol on Plasma Lipoproteins and Atherogenesis, 95
Cholesterol accumulation
Cholesterol Accumulation in Aortic Smooth Muscle Cells Exposed to Low Density Lipoproteins. Contribution of Free Cholesterol Transfer, 750
Cholesterol efflux
Ca^{++} Antagonists and ACAT Inhibitors Promote Cholesterol Efflux from Macrophages by Different Mechanisms. I. Characterization of Cellular Lipid Metabolism, 46
Ca^{++} Antagonists and ACAT Inhibitors Promote Cholesterol Efflux from Macrophages by Different Mechanisms. II. Characterization of Intracellular Morphologic Changes, 57
Cholesterol esterification
Isolation of Low Density Lipoprotein from Atherosclerotic Vascular Tissue of Watanabe Heritable Hyperlipidemic Rabbits, 768
Cholesterol metabolism
Metabolism of Canine β-Very Low Density Lipoproteins in Normal and Cholesterol-fed Dogs, 130
Cholesterol screening
High Density Lipoprotein Cholesterol, Total Cholesterol Screening, and Myocardial Infarction. The Framingham Study, 207
Cholesterol synthesis
Enhanced Metabolism of Normolipidemic Human Plasma Very Low Density Lipoprotein in Cultured Cells by Exogenous Apolipoprotein E-3, 480
Cholesterol transport
Evidence for Surface Entrapment of Cholesterol-Rich Lipoproteins in Luteinized Ovary, 298
Cholesteryl esters
Enhanced Macrophage Uptake of Low Density Lipoprotein after Self-Aggregation, 348
Chondroitin sulfate
Biosynthesis of Chondroitin Sulfate Proteoglycan by $P388D_1$ Macrophage-like Cell Line, 535
Chylomicron remnants
Apoliprotein E-binding Protein Isolated from Dog and Human Liver, 288
Cohort
Comparison of Two Measures of Atherosclerosis in a Prospective Epidemiology Study, 782
Collagen
Fibronectin in Platelet Adhesion to Human Collagen Types I and III. Use of Nonfibrillar and Fibrillar Collagen in Flowing Blood Studies, 200
Fibronectin Stimulates Macrophage Uptake of Low Density Lipoprotein-Heparin-Collagen Complexes, 263
Interaction of Native and Cell-modified Low Density Lipoprotein with Collagen Gel, 525
Combined familial hyperlipidemia
Hyperinsulinemia Is Characterized by Jointly Disturbed Plasma VLDL, LDL, and HDL Levels. A Population-based Study, 227
Conjugated diene
Presence of a Modified Low Density Lipoprotein in Humans, 79, 857
Corn oil
Antiatherogenic Effect of Olive and Corn Oils in Cholesterol-fed Rabbits with the Same Plasma Cholesterol Level, 281
Coronary arteries
Coronary Arteriosclerosis in Atlantic Salmon. No Regression of Lesions after Spawning, 378
Coronary artery
Effect of Metoprolol on Diet-induced Atherosclerosis in Rabbits, 40
Coronary artery disease
Mortality and Cholesterol Metabolism in Familial Hypercholesterolemia, Long-term Follow-up of 96 Patients, 163
Coronary atherosclerosis
Comparison of Two Measures of Atherosclerosis in a Prospective Epidemiology Study, 782
Individual Variation in Susceptibility to Extracranial Carotid Atherosclerosis, 389
Coronary blood flow
Decreased Coronary Vascular Reserve in Watanabe Heritable Hyperlipidemic Rabbits, 310
Coronary disease
Workshop on the Impact of Dietary Cholesterol on Plasma Lipoproteins and Atherogenesis, 95
Coronary heart disease
Atherosclerotic Vascular Disease in Middle-aged, Insulin-treated, Diabetic Patients. Association with Endogenous Insulin Secretion Capacity, 237
Endogenous Insulin and Sex Hormones in Atherosclerosis and Coronary Heart Disease, 544
Coronary reserve
Decreased Coronary Vascular Reserve in Watanabe Heritable Hyperlipidemic Rabbits, 310
C-peptide
Atherosclerotic Vascular Disease in Middle-aged, Insulin-treated, Diabetic Patients. Association with Endogenous Insulin Secretion Capacity, 237
Crystalline cholesterol
Progression and Regression of Atherosclerotic Lesions. Insights from Lipid Physical Biochemistry, 103
Cultured human fibroblasts
Enhanced Metabolism of Normolipidemic Human Plasma Very Low Density Lipoprotein in Cultured Cells by Exogenous Apolipoprotein E-3, 480
Cyclic AMP
Interaction of Ethanol, Prostacyclin, and Aspirin in Determining Human Platelet Reactivity in Vitro, 436

D

Density gradient ultracentrifugation
Effects of Saturated and Polyunsaturated Dietary Fat on the Concentrations of HDL Subpopulations in African Green Monkeys, 22
Dextran 40
Effect of Dextran 40 on Endothelial Binding and Vesicle Loading of Ferritin in Rabbit Aorta, 140
Diabetes mellitus
Atherosclerotic Vascular Disease in Middle-aged, Insulin-treated. Diabetic Patients. Association with Endogenous Insulin Secretion Capacity, 237
Reduced Atherogenesis in Cholesterol-fed Diabetic Rabbits. Giant Lipoproteins Do Not Enter the Arterial Wall, 421
Tissue-Type Plasminogen Activator Antigen and Plasminogen Activator Inhibitor in Diabetes Mellitus, 68
Diet
Workshop on the Impact of Dietary Cholesterol on Plasma Lipoproteins and Atherogenesis, 95
Dietary cholesterol
Atherosclerosis of Cynomolgus Monkeys Hyper- and Hyporesponsive to Dietary Cholesterol. Lack of Effect of Vasectomy, 488

Deferred Effects of Preweaning Diet on Atherosclerosis in Adolescent Baboons, 274
Effects of Selective Breeding on the Cholesterolemic Responses to Dietary Saturated Fat and Cholesterol in Baboons, 33

Dietary fat
Effects of Selective Breeding on the Cholesterolemic Responses to Dietary Saturated Fat and Cholesterol in Baboons, 33

DNA polymorphism
Pvu II Polymorphism of Low Density Lipoprotein Receptor Gene and Familial Hypercholesterolemia. Study of Italians, 845

Duff memorial lecture
Progression and Regression of Atherosclerotic Lesions. Insights from Lipid Physical Biochemistry, 103

Dyslipoproteinemia
Hyperinsulinemia Is Characterized by Jointly Disturbed Plasma VLDL, LDL, and HDL Levels. A Population-based Study, 227

E

Editorial
Arsenic, Geographical Isolates, Environmental Epidemiology, and Arteriosclerosis, 449
The European Connection, 337

Endogenous insulin
Endogenous Insulin and Sex Hormones in Atherosclerosis and Coronary Heart Disease, 544

Endothelial binding
Effect of Dextran 40 on Endothelial Binding and Vesicle Loading of Ferritin in Rabbit Aorta, 140

Endothelial cells
Binding of Apolipoprotein A-I and Apolipoprotein A-IV to Cultured Bovine Aortic Endothelial Cells, 178
Interaction of Native and Cell-modified Low Density Lipoprotein with Collagen Gel, 525
Oxidized Low Density Lipoprotein Stimulates Prostacyclin Production by Adult Human Vascular Endothelial Cells, 810

Endothelium
Endothelium from Diverse Vascular Sources Synthesizes Platelet-Activating Factor, 321
In Vivo Transfer of Cholesteryl Ester from High and Low Density Plasma Lipoproteins into Human Aortic Tissue, 252

Epidemiology
Apolipoprotein E Polymorphism and Atherosclerosis, 1
Arsenic, Geographical Isolates, Environmental Epidemiology, and Arteriosclerosis, 449
High Density Lipoprotein Cholesterol and Mortality. The Framingham Heart Study, 737
Workshop on the Impact of Dietary Cholesterol on Plasma Lipoproteins and Atherogenesis, 95

Estrogen
Endogenous Insulin and Sex Hormones in Atherosclerosis and Coronary Heart Disease, 544

Ethanol
Interaction of Ethanol, Prostacyclin, and Aspirin in Determining Human Platelet Reactivity in Vitro, 436

Exercise
Coordinate Changes in Levels of Human Serum Low and High Density Lipoprotein Subclasses in Healthy Men, 155
Effect of Moderate Exercise on Serum Lipids in Young Men with Low High Density Lipoprotein Cholesterol, 245

Extracellular matrix
Fibronectin Stimulates Macrophage Uptake of Low Density Lipoprotein-Heparin-Collagen Complexes, 263

F

Fab
Lactosaminated Fab Fragments Specific for Low Density Lipoproteins/Hepatocyte Targeting and Hypolipoproteinemic Activity, 825

Familial combined hyperlipidemia
Very Low Density Lipoprotein Triglyceride Metabolism in Relatives of Hypertriglyceridemic Probands. Evidence for Genetic Control of Triglceride Removal, 217

Familial hypercholesterolemia
Enhanced Apolipoprotein E Production with Normal Hepatic mRNA Levels in the Watanabe Heritable Hyperlipidemic Rabbit, 804
Mortality and Cholesterol Metabolism in Familial Hypercholesterolemia, Long-term Follow-up of 96 Patients, 163
New Variant of Low Density Lipoprotein Receptor Gene. FH-Tonami, 187
Pvu II Polymorphism of Low Density Lipoprotein Receptor Gene and Familial Hypercholesterolemia. Study of Italians, 845

Familial hypertriglyceridemia
Very Low Density Lipoprotein Triglyceride Metabolism in Relatives of Hypertriglyceridemic Probands. Evidence for Genetic Control of Triglceride Removal, 217

Feeding habits
Dietary Factors Relate to Cardiovascular Risk Factors in Early Life. Bogalusa Heart Study, 193

Fibrinolysis
Tissue-Type Plasminogen Activator Antigen and Plasminogen Activator Inhibitor in Diabetes Mellitus, 68

Fibroblasts
Interaction of Native and Cell-modified Low Density Lipoprotein with Collagen Gel, 525

Fibronectin
Fibronectin in Platelet Adhesion to Human Collagen Types I and III. Use of Nonfibrillar and Fibrillar Collagen in Flowing Blood Studies, 200
Fibronectin Stimulates Macrophage Uptake of Low Density Lipoprotein-Heparin-Collagen Complexes, 263

Flotation rate
Coordinate Changes in Levels of Human Serum Low and High Density Lipoprotein Subclasses in Healthy Men, 155

Flow
Blood Platelets Are Concentrated near the Wall and Red Blood Cells, in the Center in Flowing Blood, 819

Foam cell lesion
Suppression of Foam Cell Lesions in Hypercholesterolemic Rabbits by Inhibition of Thromboxane A_2 Synthesis, 359

Framingham Study
High Density Lipoprotein Cholesterol, Total Cholesterol Screening, and Myocardial Infarction. The Framingham Study, 207

G

Galactose receptor
Lactosaminated Fab Fragments Specific for Low Density Lipoproteins/Hepatocyte Targeting and Hypolipoproteinemic Activity, 825

Gamma camera imaging
Imaging Human Atherosclerosis with ^{99m}Tc-labeled Low Density Lipoproteins, 461

Genetic polymorphism
Apolipoprotein E Polymorphism and Atherosclerosis, 1

Genotype
Heredity and Changes in Plasma Lipids and Lipoproteins after Short-term Exercise Training in Men, 402

Glucose intolerance
Hyperinsulinemia Is Characterized by Jointly Disturbed Plasma VLDL, LDL, and HDL Levels. A Population-based Study, 227

Glucose tolerance
Heredity and Changes in Plasma Lipids and Lipoproteins after Short-term Exercise Training in Men, 402

Glucose uptake
Insulin Therapy Induces Antiatherogenic Changes of Serum Lipoproteins in Noninsulin-Dependent Diabetes, 168

Glycosaminoglycans
Interaction of Lipoprotein Lp(a) and Low Density Lipoprotein with Glycosaminoglycans from Human Aorta, 851

H

HDL
Binding of Apolipoprotein A-I and Apolipoprotein A-IV to Cultured Bovine Aortic Endothelial Cells, 178
Coordinate Changes in Levels of Human Serum Low and High Density Lipoprotein Subclasses in Healthy Men, 155
Effect of Moderate Exercise on Serum Lipids in Young Men with Low High Density Lipoprotein Cholesterol, 245
Effects of Saturated and Polyunsaturated Dietary Fat on the Concentrations of HDL Subpopulations in African Green Monkeys, 22
Evidence for Surface Entrapment of Cholesterol-Rich Lipoproteins in Luteinized Ovary, 298
Human Aortic Fibrolipid Lesions. Immunochemical Localization of Apolipoprotein B and Apolipoprotein A, 499
Hyperinsulinemia Is Characterized by Jointly Disturbed Plasma VLDL, LDL, and HDL Levels. A Population-based Study, 227
Insulin Therapy Induces Antiatherogenic Changes of Serum Lipoproteins in Noninsulin-Dependent Diabetes, 168
In Vivo Transfer of Cholesteryl Ester from High and Low Density Plasma Lipoproteins into Human Aortic Tissue, 252

HDL cholesterol
Heredity and Changes in Plasma Lipids and Lipoproteins after Short-term Exercise Training in Men, 402
High Density Lipoprotein Cholesterol and Mortality. The Framingham Heart Study, 737
High Density Lipoprotein Cholesterol, Total Cholesterol Screening, and Myocardial Infarction, The Framingham Study, 207
Lipoprotein Lp(a). A Risk Factor for Myocardial Infarction, 398

HDL receptor
Ca^{++} Antagonists and ACAT Inhibitors Promote Cholesterol Efflux from Macrophages by Different Mechanisms. I. Characterization of Cellular Lipid Metabolism, 46
Ca^{++} Antagonists and ACAT Inhibitors Promote Cholesterol Efflux from Macrophages by Different Mechanisms. II. Characterization of Intracellular Morphologic Changes, 57

Hematocrit
Blood Platelets Are Concentrated near the Wall and Red Blood Cells, in the Center in Flowing Blood, 819

Hemodynamics
An International Symposium on the Role of Blood Flow in Atherogenesis, 445

Hemorheology
Blood Rheology in Healthy Cigarette Smokers. Results from the MONICA Project, Augsburg, 385

Heparin
Fibronectin Stimulates Macrophage Uptake of Low Density Lipoprotein-Heparin-Collagen Complexes, 263
Metabolism of Apolipoproteins C-II, C-III, and B in Hypertriglyceridemic Men: Changes after Heparin-induced Lipolysis, 471

Hepatic lipoprotein receptors
Metabolism of Canine β-Very Low Density Lipoproteins in Normal and Cholesterol-fed Dogs, 130

Hepatocyte
Lactosaminated Fab Fragments Specific for Low Density Lipoproteins/Hepatocyte Targeting and Hypolipoproteinemic Activity, 825

Human
Prostacyclin, Thromboxane A_2, and Prostaglandin E_2 Formation in Atherosclerotic Human Carotid Artery, 73

Human atherosclerosis
Imaging Human Atherosclerosis with ^{99m}Tc-labeled Low Density Lipoproteins, 461

Human fibrolipid lesion
Human Aortic Fibrolipid Lesions. Immunochemical Localization of Apolipoprotein B and Apolipoprotein A, 499

25-hydroxycholesterol
Binding of Apolipoprotein A-I and Apolipoprotein A-IV to Cultured Bovine Aortic Endothelial Cells, 178

Hypercholesterolemia
Antiatherogenic Effect of Olive and Corn Oils in Cholesterol-fed Rabbits with the Same Plasma Cholesterol Level, 281

Hyperinsulinemia
Hyperinsulinemia Is Characterized by Jointly Disturbed Plasma VLDL, LDL, and HDL Levels. A Population-based Study, 227

Hyperlipidemia
Apolipoprotein E Polymorphism and Atherosclerosis, 1
Decreased Coronary Vascular Reserve in Watanabe Heritable Hyperlipidemic Rabbits, 310

Hypertension
Hyperinsulinemia Is Characterized by Jointly Disturbed Plasma VLDL, LDL, and HDL Levels. A Population-based Study, 227

Hypertriglyceridemia
Reduced Atherogenesis in Cholesterol-fed Diabetic Rabbits. Giant Lipoproteins Do Not Enter the Arterial Wall, 421

Hypolipoprotein agent
Lactosaminated Fab Fragments Specific for Low Density Lipoproteins/Hepatocyte Targeting and Hypolipoproteinemic Activity, 825

I

IDL
Coordinate Changes in Levels of Human Serum Low and High Density Lipoprotein Subclasses in Healthy Men, 155

Image processing
Quantitative Ultrasound Pulsation Study in Human Carotid Artery Disease, 778

Immunochemistry
Human Aortic Fibrolipid Lesions. Immunochemical Localization of Apolipoprotein B and Apolipoprotein A, 499

Immunogenetic polymorphisms
Apolipoprotein B Gene Haplotypes. Association between Ag and DNA Polymorphisms, 521

Infant diet
Deferred Effects of Preweaning Diet on Atherosclerosis in Adolescent Baboons, 274

Inhibition of atherosclerosis
Inhibition of Atherosclerosis Associated with Reduction of Arterial Intramural Stress in Rabbits, 410

Insulin
Heredity and Changes in Plasma Lipids and Lipoproteins after Short-term Exercise Training in Men, 402

Insulin-dependent diabetes mellitus
Association between Retinopathy and Impaired Peripheral Arterial Circulation in Insulin-Dependent Diabetic Patients, 509

Insulin therapy
Atherosclerotic Vascular Disease in Middle-aged, Insulin-treated, Diabetic Patients. Association with Endogenous Insulin Secretion Capacity, 237
Insulin Therapy Induces Antiatherogenic Changes of Serum Lipoproteins in Noninsulin-Dependent Diabetes, 168

Intimal thickening
Identification of Macrophages in Intimal Thickening of Rat Carotid Arteries by Cytochemical Localization of Purine Nucleoside Phosphorylase, 759

Intramural stress
Inhibition of Atherosclerosis Associated with Reduction of Arterial Intramural Stress in Rabbits, 410

Ion exchange chromatography
Presence of a Modified Low Density Lipoprotein in Humans, 79, 857

L

Lamellar bodies
Ca^{++} Antagonists and ACAT Inhibitors Promote Cholesterol Efflux from Macrophages by Different Mechanisms. I. Characterization of Cellular Lipid Metabolism, 46
Ca^{++} Antagonists and ACAT Inhibitors Promote Cholesterol Efflux from Macrophages by Different Mechanisms. II. Characterization of Intracellular Morphologic Changes, 57

LDL
Apolipoprotein B Gene Haplotypes. Association between Ag and DNA Polymorphisms, 521

Apolipoprotein B. The Ag(a_1/d) Immunogenetic Polymorphism Coincides with a T-to-C Substitution at Nucleotide 1981, Creating an Alu I Restriction Site, 429
Biosynthesis of Chondroitin Sulfate Proteoglycan by P388D$_1$ Macrophage-like Cell Line, 535
Cholesterol Accumulation in Aortic Smooth Muscle Cells Exposed to Low Density Lipoproteins. Contribution of Free Cholesterol Transfer, 750
Coordinate Changes in Levels of Human Serum Low and High Density Lipoprotein Subclasses in Healthy Men, 155
Enhanced Metabolism of Normolipidemic Human Plasma Very Low Density Lipoprotein in Cultured Cells by Exogenous Apolipoprotein E-3, 480
Evidence for Surface Entrapment of Cholesterol-Rich Lipoproteins in Luteinized Ovary, 298
Expression of Apolipoprotein B Epitopes in Lipoproteins. Relationship to Conformation and Function, 832
Fibronectin Stimulates Macrophage Uptake of Low Density Lipoprotein-Heparin-Collagen Complexes, 263
Human Aortic Fibrolipid Lesions. Immunochemical Localization of Apolipoprotein B and Apolipoprotein A, 499
Hyperinsulinemia Is Characterized by Jointly Disturbed Plasma VLDL, LDL, and HDL Levels. A Population-based Study, 227
Identification of Apo B-100 Segments Mediating the Interaction of Low Density Lipoproteins with Arterial Proteoglycans, 368
Imaging Human Atherosclerosis with ^{99m}Tc-labeled Low Density Lipoproteins, 461
Interaction of Lipoprotein Lp(a) and Low Density Lipoprotein with Glycosaminoglycans from Human Aorta, 851
Interaction of Native and Cell-modified Low Density Lipoprotein with Collagen Gel, 525
In Vivo Transfer of Cholesteryl Ester from High and Low Density Plasma Lipoproteins into Human Aortic Tissue, 252
Isolation of Low Density Lipoprotein from Atherosclerotic Vascular Tissue of Watanabe Heritable Hyperlipidemic Rabbits, 768
Lactosaminated Fab Fragments Specific for Low Density Lipoproteins/Hepatocyte Targeting and Hypolipoproteinemic Activity, 825
Presence of a Modified Low Density Lipoprotein in Humans, 79, 857

LDL cholesterol
Lipoprotein Lp(a). A Risk Factor for Myocardial Infarction, 398

LDL receptor
Apoliprotein E-binding Protein Isolated from Dog and Human Liver, 288
Expression of Apolipoprotein B Epitopes in Lipoproteins. Relationship to Conformation and Function, 832
Lipid Composition of Aorta of Watanabe Heritable Hyperlipemic and Comparably Hypercholesterolemic Fat-fed Rabbits. Plasma Lipid Composition Determines Aortic Lipid Composition of Hypercholesterolemic Rabbits, 338, 857
Presence of a Modified Low Density Lipoprotein in Humans, 79, 857

LDL receptor gene
New Variant of Low Density Lipoprotein Receptor Gene. FH-Tonami, 187
Pvu II Polymorphism of Low Density Lipoprotein Receptor Gene and Familial Hypercholesterolemia. Study of Italians, 845

Lipid composition
Lipid Composition of Aorta of Watanabe Heritable Hyperlipemic and Comparably Hypercholesterolemic Fat-fed Rabbits. Plasma Lipid Composition Determines Aortic Lipid Composition of Hypercholesterolemic Rabbits, 338, 857

Lipid peroxidation
Isolation of Low Density Lipoprotein from Atherosclerotic Vascular Tissue of Watanabe Heritable Hyperlipidemic Rabbits, 768
Presence of a Modified Low Density Lipoprotein in Humans, 79, 857

Lipids
Body Fat Distribution, Plasma Lipids, and Lipoproteins, 88
Characteristics Associated with Apoprotein and Lipoprotein Lipid Levels in Middle-aged Women, 515
Dietary Factors Relate to Cardiovascular Risk Factors in Early Life. Bogalusa Heart Study, 193
Effect of Metoprolol on Diet-induced Atherosclerosis in Rabbits, 40

Lipolysis
Metabolism of Apolipoproteins C-II, C-III, and B in Hypertriglyceridemic Men. Changes after Heparin-induced Lipolysis, 471

Lipolytic enzymes
Insulin Therapy Induces Antiatherogenic Changes of Serum Lipoproteins in Noninsulin-Dependent Diabetes, 168

Lipoprotein binding
Evidence for Surface Entrapment of Cholesterol-Rich Lipoproteins in Luteinized Ovary, 298

Lipoprotein modification
Isolation of Low Density Lipoprotein from Atherosclerotic Vascular Tissue of Watanabe Heritable Hyperlipidemic Rabbits, 768

Lipoproteins
Body Fat Distribution, Plasma Lipids, and Lipoproteins, 88
Characteristics Associated with Apoprotein and Lipoprotein Lipid Levels in Middle-aged Women, 515
Coordinate Changes in Levels of Human Serum Low and High Density Lipoprotein Subclasses in Healthy Men, 155
Deferred Effects of Preweaning Diet on Atherosclerosis in Adolescent Baboons, 274
Dietary Factors Relate to Cardiovascular Risk Factors in Early Life. Bogalusa Heart Study, 193
Effects of Selective Breeding on the Cholesterolemic Responses to Dietary Saturated Fat and Cholesterol in Baboons, 33
Enhanced Apolipoprotein E Production with Normal Hepatic mRNA Levels in the Watanabe Heritable Hyperlipidemic Rabbit, 804
Expression of Apolipoprotein B Epitopes in Lipoproteins. Relationship to Conformation and Function, 832
Human Aortic Fibrolipid Lesions. Immunochemical Localization of Apolipoprotein B and Apolipoprotein A, 499
Insulin Therapy Induces Antiatherogenic Changes of Serum Lipoproteins in Noninsulin-Dependent Diabetes, 168
Metabolism of Apolipoproteins C-II, C-III, and B in Hypertriglyceridemic Men. Changes after Heparin-induced Lipolysis, 471
Prevalence of Carotid Atherosclerosis and Serum Cholesterol Levels in Eastern Finland, 788
Progression and Regression of Atherosclerotic Lesions. Insights from Lipid Physical Biochemistry, 103
Reduced Atherogenesis in Cholesterol-fed Diabetic Rabbits. Giant Lipoproteins Do Not Enter the Arterial Wall, 421
Tenth Annual European Lipoprotein Conference, 442
Workshop on the Impact of Dietary Cholesterol on Plasma Lipoproteins and Atherogenesis, 95

A NOTE OF THANKS

REVIEW

1 Apolipoprotein E Polymorphism and Atherosclerosis
Jean Davignon, Richard E. Gregg, and Charles F. Sing

ARTICLES

22 Effects of Saturated and Polyunsaturated Dietary Fat on the Concentrations of HDL Subpopulations in African Green Monkeys
John Babiak, Frank T. Lindgren, and Lawrence L. Rudel

33 Effects of Selective Breeding on the Cholesterolemic Responses to Dietary Saturated Fat and Cholesterol in Baboons
Henry C. McGill, Jr., C. Alex McMahan, Glen E. Mott, Yolan N. Marinez, and Thomas J. Kuehl

40 Effect of Metoprolol on Diet-Induced Atherosclerosis in Rabbits
Ann-Margret Östlund-Lindqvist, Peter Lindqvist, John Bräutigam, Gun Olsson, Göran Bondjers, and Claes Nordborg

46 Ca^{++} Antagonists and ACAT Inhibitors Promote Cholesterol Efflux from Macrophages by Different Mechanisms. I. Characterization of Cellular Lipid Metabolism
Gerd Schmitz, Horst Robenek, M. Beuck, R. Krause, A. Schurek, and R. Niemann

57 Ca^{++} Antagonists and ACAT Inhibitors Promote Cholesterol Efflux from Macrophages by Different Mechanisms. II. Characterization of Intracellular Morphologic Changes
Horst Robenek and Gerd Schmitz

68 Tissue-Type Plasminogen Activator Antigen and Plasminogen Activator Inhibitor in Diabetes Mellitus
Johan Auwerx, Roger Bouillon, Désiré Collen, and Jef Geboers

73 Prostacyclin, Thromboxane A_2, and Prostaglandin E_2 Formation in Atherosclerotic Human Carotid Artery
Daniel Scott Rush, Morris Daniel Kerstein, John Alexander Bellan, Suzanne Marie Knoop, Philip Rene Mayeux, Albert Lewis Hyman, Philip Jay Kadowitz, and Dennis Benjamin McNamara

79 Presence of a Modified Low Density Lipoprotein in Humans
Pietro Avogaro, Gabriele Bittolo Bon, and Giuseppe Cazzolato

88 Body Fat Distribution, Plasma Lipids, and Lipoproteins
Alfred J. Anderson, Kathleen A. Sobocinski, David S. Freedman, Joseph J. Barboriak, Alfred A. Rimm, and Harvey W. Gruchow

MEETING SUMMARY

95 Workshop on the Impact of Dietary Cholesterol on Plasma Lipoproteins and Atherogenesis
Scott M. Grundy, Elizabeth Barrett-Connor, Lawrence L. Rudel, Tatu Miettinen, and Arthur A. Spector

Arteriosclerosis

Volume 8, Number 2, March/April 1988

GEORGE LYMAN DUFF MEMORIAL LECTURE

103 Progression and Regression of Atherosclerotic Lesions. Insights from Lipid Physical Biochemistry
Donald M. Small

ARTICLES

130 Metabolism of Canine ß-Very Low Density Lipoproteins in Normal and Cholesterol-Fed Dogs
Menahem Fainaru, Harald Funke, Janet K. Boyles, Erwin H. Ludwig, Thomas L. Innerarity, and Robert W. Mahley

140 Effect of Dextran 40 on Endothelial Binding and Vesicle Loading of Ferritin in Rabbit Aorta
Ann L. Baldwin and Shu Chien

147 Role of Phosphoinositides in the Regulation of Endothelial Prostacyclin Production
Haraldur Halldórsson, Matthías Kjeld, and Gudmundur Thorgeirsson

155 Coordinate Changes in Levels of Human Serum Low and High Density Lipoprotein Subclasses in Healthy Men
Ronald M. Krauss, Paul T. Williams, Frank T. Lindgren, and Peter D. Wood

163 Mortality and Cholesterol Metabolism in Familial Hypercholesterolemia. Long-Term Follow-up of 96 Patients
Tatu A. Miettinen and Helena Gylling

168 Insulin Therapy Induces Antiatherogenic Changes of Serum Lipoproteins in Noninsulin-Dependent Diabetes
Marja-Riitta Taskinen, Timo Kuusi, Eero Helve, Esko A. Nikkilä, and Hannele Yki-Järvinen

178 Binding of Apolipoprotein A-I and Apolipoprotein A-IV to Cultured Bovine Aortic Endothelial Cells
Naphtali Savion and Aviva Gamliel

187 New Variant of Low Density Lipoprotein Receptor Gene. FH-Tonami
Kouji Kajinami, Hiroshi Mabuchi, Hideaki Itoh, Ichiro Michishita, Mitsuaki Takeda, Takanobu Wakasugi, Junji Koizumi, and Ryoyu Takeda

193 Dietary Factors Relate to Cardiovascular Risk Factors in Early Life. Bogalusa Heart Study
Theresa A. Nicklas, Rosanne P. Farris, Carey G. Smoak, Gail C. Frank, Sathanur R. Srinivasan, Larry S. Webber, and Gerald S. Berenson

200 Fibronectin in Platelet Adhesion to Human Collagen Types I and III. Use of Nonfibrillar and Fibrillar Collagen in Flowing Blood Studies
Patricia F. E. M. Nievelstein, Patrizia A. D'Allesio, and Jan J. Sixma

Arteriosclerosis

Volume 8, Number 3, May/June 1988

ARTICLES

207 High Density Lipoprotein Cholesterol, Total Cholesterol Screening, and Myocardial Infarction. The Framingham Study
Robert D. Abbott, Peter W.F. Wilson, William B. Kannel, and William P. Castelli

212 Lp(a) Phenotyping by Immunoblotting with Polyclonal and Monoclonal Antibodies
Hans-Georg Kraft, Hans Dieplinger, Elaine Hoye, and Gerd Utermann

217 Very Low Density Lipoprotein Triglyceride Metabolism in Relatives of Hypertriglyceridemic Probands. Evidence for Genetic Control of Triglyceride Removal
Timo Sane and Esko A. Nikkilä

227 Hyperinsulinemia Is Characterized by Jointly Disturbed Plasma VLDL, LDL, and HDL Levels. A Population-Based Study
Michaela Modan, Hillel Halkin, Ayala Lusky, Pesach Segal, Zahava Fuchs, and Angela Chetrit

237 Atherosclerotic Vascular Disease in Middle-Aged, Insulin-Treated, Diabetic Patients. Association with Endogenous Insulin Secretion Capacity
Tapani Rönnemaa, Markku Laakso, Pauli Puukka, Veikko Kallio, and Kalevi Pyörälä

245 Effect of Moderate Exercise on Serum Lipids in Young Men with Low High Density Lipoprotein Cholesterol
Itamar Raz, Haya Rosenblit, and Jeremy D. Kark

252 In Vivo Transfer of Cholesteryl Ester from High and Low Density Plasma Lipoproteins into Human Aortic Tissue
Steen Stender and Erik Hjelms

263 Fibronectin Stimulates Macrophage Uptake of Low Density Lipoprotein-Heparin-Collagen Complexes
Domenick J. Falcone and Brian G.J. Salisbury

274 Deferred Effects of Preweaning Diet on Atherosclerosis in Adolescent Baboons
Douglas S. Lewis, Glen E. Mott, C. Alex McMahan, Edward J. Masoro, K.D. Carey, and Henry C. McGill, Jr.

281 Antiatherogenic Effect of Olive and Corn Oils in Cholesterol-Fed Rabbits with the Same Plasma Cholesterol Level
Per Leth-Espensen, Steen Stender, Hans Ravn, and Knud Kjeldsen

288 Apoliprotein E-binding Protein Isolated from Dog and Human Liver
Ulrike Beisiegel, Wilfried Weber, Johan R. Havinga, Gudrun Ihrke, David Y. Hui, Mary Ellen Wernette-Hammond, Christoph W. Turck, Thomas L. Innerarity, and Robert W. Mahley

298 Evidence for Surface Entrapment of Cholesterol-Rich Lipoproteins in Luteinized Ovary
Eve Reaven, Janet Boyles, Marjorie Spicher, and Salman Azhar

310 Decreased Coronary Vascular Reserve in Watanabe Heritable Hyperlipidemic Rabbits
Jean-Paul Clozel, Hans Lengsfeld, Herbert Kuhn, and Hans R. Baumgartner

321 Endothelium from Diverse Vascular Sources Synthesizes Platelet-Activating Factor
Ralph E. Whatley, Guy A. Zimmerman, Thomas M. McIntyre, and Stephen M. Prescott

332 Effects of Flow Pulsatility on Platelet Adhesion to Subendothelium
Hans H.F.I. van Breugel, Jan J. Sixma, and Robert M. Heethaar

336A **NEWS FROM THE AMERICAN HEART ASSOCIATION**

Arteriosclerosis

Volume 8, Number 4, July/August 1988

EDITORIAL

337 The European Connection
Edwin L. Bierman

338 Lipid Composition of Aorta of Watanabe Heritable Hyperlipemic and Comparably Hypercholesterolemic Fat-fed Rabbits. Plasma Lipid Composition Determines Aortic Lipid Composition of Hypercholesterolemic Rabbits
Michael E. Rosenfeld, Alan Chait, Edwin L. Bierman, Weiling King, Paul Goodwin, Carolyn E. Walden, and Russell Ross

348 Enhanced Macrophage Uptake of Low Density Lipoprotein after Self-Aggregation
John C. Khoo, Elizabeth Miller, Patricia McLoughlin, and Daniel Steinberg

359 Suppression of Foam Cell Lesions in Hypercholesterolemic Rabbits by Inhibition of Thromboxane A_2 Synthesis
Victor A. Skrinska, Martha Konieczkowski, Ross G. Gerrity, Cirilo F. Galang, and Mihailo V. Rebec

368 Identification of Apo B-100 Segments Mediating the Interaction of Low Density Lipoproteins with Arterial Proteoglycans
Germán Camejo, Sven-Olof Olofsson, Flor Lopez, Peter Carlsson, and Göran Bondjers

378 Coronary Arteriosclerosis in Atlantic Salmon. No Regression of Lesions after Spawning
Richard L. Saunders and Anthony P. Farrell

385 Blood Rheology in Healthy Cigarette Smokers. Results from the MONICA Project, Augsburg
Edzard Ernst, Wolfgang Koenig, Arpad Matrai, Birgit Filipiak, and Jutta Stieber

389 Individual Variation in Susceptibility to Extracranial Carotid Atherosclerosis
Jonathan Rubens, Mark A. Espeland, Jacqueline Ryu, Gary Harpold, William M. McKinney, Frederic R. Kahl, James F. Toole, and John R. Crouse, III

398 Lipoprotein Lp(a). A Risk Factor for Myocardial Infarction
Gerald Hoefler, Franz Harnoncourt, Eduard Paschke, Wolfgang Mirtl, Karl H. Pfeiffer, and Gerhard M. Kostner

402 Heredity and Changes in Plasma Lipids and Lipoproteins after Short-term Exercise Training in Men
Jean-Pierre Després, Sital Moorjani, Angelo Tremblay, Eric T. Poehlman, Paul J. Lupien, André Nadeau, and Claude Bouchard

410 Inhibition of Atherosclerosis Associated with Reduction of Arterial Intramural Stress in Rabbits
Mano J. Thubrikar, Joseph W. Baker, and Stanton P. Nolan

421 Reduced Atherogenesis in Cholesterol-fed Diabetic Rabbits. Giant Lipoproteins Do Not Enter the Arterial Wall
Børge G. Nordestgaard, Steen Stender, and Knud Kjeldsen

429 Apolipoprotein B: The Ag(a_1/d) Immunogenetic Polymorphism Coincides with a T-to-C Substitution at Nucleotide 1981, Creating an Alu I Restriction Site
Xingbo Wang, Peter Schlapfer, Yuanhong Ma, Rene Bütler, John Elovson, and Verne N. Schumaker

436 Interaction of Ethanol, Prostacyclin, and Aspirin in Determining Human Platelet Reactivity in Vitro
Joseph A. Jakubowski, Raymond Vaillancourt, and Daniel Deykin

MEETING SUMMARIES

442 Tenth Annual European Lipoprotein Conference
Alberico Catapano, Shlomo Eisenberg, Peter Laggner, Anne K. Soutar, and James Shepherd

445 An International Symposium on the Role of Blood Flow in Atherogenesis
Takami Yamaguchi and Yoji Yoshida

449A **NEWS FROM THE AMERICAN HEART ASSOCIATION**

Arteriosclerosis

Volume 8, Number 5 September/October 1988

EDITORIAL

449 Arsenic, Geographical Isolates, Environmental Epidemiology, and Arteriosclerosis
David E. Lilienfeld

452 Atherogenicity and Carcinogenicity of High-Arsenic Artesian Well Water. Multiple Risk Factors and Related Malignant Neoplasms of Blackfoot Disease
Chien-Jen Chen, Meei-Maan Wu, Shin-Shin Lee, Jung-Der Wang, Shou-Hsia Cheng, and Hsin-Ying Wu

461 Imaging Human Atherosclerosis with ^{99m}Tc-labeled Low Density Lipoproteins
Ann M. Lees, Robert S. Lees, Frederick J. Schoen, Jonathan L. Isaacsohn, Alan J. Fischman, Kenneth A. McKusick, and H. William Strauss

471 Metabolism of Apolipoproteins C-II, C-III, and B in Hypertriglyceridemic Men. Changes after Heparin-induced Lipolysis
Murray W. Huff, W. Carl Breckenridge, Wendy L.P. Strong, and Bernard M. Wolfe

480 Enhanced Metabolism of Normolipidemic Human Plasma Very Low Density Lipoprotein in Cultured Cells by Exogenous Apolipoprotein E-3
Shlomo Eisenberg, Gideon Friedman, and Tikva Vogel

488 Atherosclerosis of Cynomolgus Monkeys Hyper- and Hyporesponsive to Dietary Cholesterol. Lack of Effect of Vasectomy
Thomas B. Clarkson, Nancy J. Alexander, and Timothy M. Morgan

499 Human Aortic Fibrolipid Lesions. Immunochemical Localization of Apolipoprotein B and Apolipoprotein A
Thomas M.A. Bocan, Spencer A. Brown, and John R. Guyton

509 Association between Retinopathy and Impaired Peripheral Arterial Circulation in Insulin-Dependent Diabetic Patients
Gabriele Riccardi, Olga Vaccaro, Angela Rivellese, Geremia Romano, Vittorio Cambri, Paolo Rubba, Paolo Pauciullo, Giovanni Greco, Ciro Iovine, and Mario Mancini

515 Characteristics Associated with Apoprotein and Lipoprotein Lipid Levels in Middle-aged Women
Elaine N. Mellahn, Lewis H. Kuller, Evan A. Stein, Arlene W. Caggiula, and Karen A. Matthews

521 Apolipoprotein B Gene Haplotypes. Association between Ag and DNA Polymorphisms
Yuanhong Ma, John A.A. Ladias, Rene Bütler, Verne N. Schumaker, Stylianos E. Antonarakis, Aldons J. Lusis, Camilla Heinzman, and Peter O. Kwiterovich

525 Interaction of Native and Cell-modified Low Density Lipoprotein with Collagen Gel
Gayle A. Hoover, Suzanne McCormick, and Norman Kalant

535 Biosynthesis of Chondroitin Sulfate Proteoglycan by P388D$_1$ Macrophage-like Cell Line
James E. Christner

MEETING SUMMARY

544 Endogenous Insulin and Sex Hormones in Atherosclerosis and Coronary Heart Disease
Richard P. Donahue, Elizabeth Barrett-Connor, Trevor J. Orchard, and James P. Gutai

ABSTRACTS

549a Abstracts Submitted to the 42nd Annual Meeting, Council on Arteriosclerosis, American Society for the Study of Arteriosclerosis, Washington, D.C., November 1988

638a Authors Index to Arteriosclerosis Abstracts

648a Abstracts Submitted to the 8th National Conference on Thrombosis and Hemostasis, Washington, D.C., November 1988

ARTICLES

737 High Density Lipoprotein Cholesterol and Mortality. The Framingham Heart Study
Peter W.F. Wilson, Robert D. Abbott, and William P. Castelli

742 Serum Lipids and Apolipoprotein Levels in Women with Acute Myocardial Infarction
Saga Johansson, Göran Bondjers, Gunnar Fager, Hans Wedel, Alecka Tsipogianni, Sven-Olof Olofsson, Anders Vedin, Olle Wiklund, and Claes Wilhelmsson

750 Cholesterol Accumulation in Aortic Smooth Muscle Cells Exposed to Low Density Lipoproteins. Contribution of Free Cholesterol Transfer
J. Peter Slotte, Alan Chait, and Edwin L. Bierman

759 Identification of Macrophages in Intimal Thickening of Rat Carotid Arteries by Cytochemical Localization of Purine Nucleoside Phosphorylase
Alfons K. Verheyen, Eddy M. Vlaminckx, Freddie M. Lauwers, Marc L. Saint-Guillain, and Marcel J. Borgers

768 Isolation of Low Density Lipoprotein from Atherosclerotic Vascular Tissue of Watanabe Heritable Hyperlipidemic Rabbits
Alan Daugherty, Ben S. Zweifel, Burton E. Sobel, and Gustav Schonfeld

778 Quantitative Ultrasound Pulsation Study in Human Carotid Artery Disease
Jacques D. Barth, David H. Blankenhorn, Emily Wickham, June Y. Lai, H.P. Chin, and Robert H. Selzer

782 Comparison of Two Measures of Atherosclerosis in a Prospective Epidemiology Study
Dwayne M. Reed, Jack P. Strong, Takuji Hayashi, W. P. Newman III, Richard E. Tracy, Miguel A. Guzman, and Grant N. Stemmermann

788 Prevalence of Carotid Atherosclerosis and Serum Cholesterol Levels in Eastern Finland
Riitta Salonen, Kari Seppänen, Rainer Rauramaa, and Jukka T. Salonen

793 Assessment of Cardiovascular Risk Factors in Nigerian Students
Lucile L. Adams-Campbell, Martin U. Nwankwo, Jackson A. Omene, Flora A. Ukoli, Michelle P. Young, Gwendolyn T. Halle, and Lewis H. Kuller

797 Independent Effects of Diet and Nutritional Status on Apoprotein B Gene Expression in Rabbit
Edward A. Fisher, Ammar Anbari, David M. Klurfeld, and David Kritchevsky

804 Enhanced Apolipoprotein E Production with Normal Hepatic mRNA Levels in the Watanabe Heritable Hyperlipidemic Rabbit
Christopher J.N. Rall, Jeffrey M. Hoeg, Richard E. Gregg, Simon W. Law, Juan C. Monge, Martha S. Meng, Loren A. Zech, and H. Bryan Brewer, Jr.

810 Oxidized Low Density Lipoprotein Stimulates Prostacyclin Production by Adult Human Vascular Endothelial Cells
J. Eric Triau, Simin Nikkin Meydani, and Ernst J. Schaefer

819 Blood Platelets Are Concentrated near the Wall and Red Blood Cells, in the Center in Flowing Blood
Piet A.M.M. Aarts, Sjaak A.T. van den Broek, Gerrit W. Prins, Gerard D.C. Kuiken, Jan J. Sixma, and Robert M. Heethaar

825 Lactosaminated Fab Fragments Specific for Low Density Lipoproteins/Hepatocyte Targeting and Hypolipoproteinemic Activity
Franco Bernini, David P. Via, Thomas M.A. Bocan, Antonio M. Gotto Jr., and Louis C. Smith

832 Expression of Apolipoprotein B Epitopes in Lipoproteins. Relationship to Conformation and Function
Yves L. Marcel, Mireille Hogue, Philip K. Weech, Jean Davignon, and Ross W. Milne

845 Pvu II Polymorphism of Low Density Lipoprotein Receptor Gene and Familial Hypercholesterolemia. Study of Italians
Antonio Daga, Marina Fabbi, Tiziana Mattioni, Stefano Bertolini, and Giorgio Corte

851 Interaction of Lipoprotein Lp(a) and Low Density Lipoprotein with Glycosaminoglycans from Human Aorta
Magdolna Bihari-Varga, Eva Gruber, Martina Rotheneder, Rudolf Zechner, and Gert M. Kostner
